

MACKMA HORIZONTAL PRESS PR10T

A compact 10 Ton, Bench Top Horizontal Press, powered by an efficient, high quality hydraulic pack.

A precision, chromed piston ensures accuracy, with a simple mechanical adjustment of the end stop.

Simple manual control with return spring to the start position.

With a single phase electrical supply, the machine is also a very handy machine for use on site.

TECHNICAL FEATURES

Manual lever control

Simple mechanical locking screw for bend stop position

Typical example of a square shaped component
